

Francis Nwayalani

Full-Stack Developer | Backend Engineer (Laravel & Node.js)

Asaba, Delta State, Nigeria | +234 912 419 7276 | fnwayalani@gmail.com

LinkedIn: <https://linkedin.com/in/francis-nwayalani-7b22a3304>

PROFESSIONAL SUMMARY

Highly motivated Full-Stack Developer with a solid foundation in backend engineering, specializing in Laravel (PHP) and Node.js. Skilled in developing robust APIs, scalable systems, and user-centric applications. Experienced in full project life cycle - from requirements gathering to deployment. Known for problem-solving ability, clean code practices, and effective team collaboration. Eager to contribute to high-impact engineering teams and continuously grow with modern tech stacks. Learnt Node.js from Udemy. Completed several client projects under NDAs, including the RillyAllure e-commerce platform (riyallure.com.ng).

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML, CSS, SQL

Backend: Laravel, Node.js (Express)

Frontend: React.js, Bootstrap

Databases: MySQL, Postgresql

Tools & Platforms: Git, Postman, Docker (basic), RESTful APIs, VS Code

Other: Object-Oriented Programming (OOP), MVC Architecture, Agile/Scrum

EXPERIENCE

Freelance Full-Stack Developer - NAZ_TECH

Asaba, Nigeria | Jan 2024 - Present

- Designed and deployed full-stack web applications tailored to client requirements using Laravel and Node.js

Francis Nwayalani

Full-Stack Developer | Backend Engineer (Laravel & Node.js)

Asaba, Delta State, Nigeria | +234 912 419 7276 | fnwayalani@gmail.com

LinkedIn: <https://linkedin.com/in/francis-nwayalani-7b22a3304>

- Optimized queries and implemented proper indexing to ensure performance at scale
- Managed client communications, proposals, and full delivery cycle
- Delivered projects on tight deadlines with a focus on quality and reusability
- Built secure and scalable RESTful APIs and backend services

Backend Developer Intern - Coriftech Solution

Ltd Asaba, Nigeria | Apr 2024 - Sep 2024

- Contributed to backend logic for enterprise web systems using Laravel
- Worked on API integration and database design for an internal attendance tracking platform
- Participated in code reviews, debugging, and performance optimization tasks
- Collaborated with front-end teams to align UI with backend structure

PROJECTS

Coriftech Attendance System

<https://attendance.coriftech.com/> | Aug 2024 - Sep 2024

- Built a full-stack application to monitor student attendance and generate monthly reports per facilitator
- Technologies: Laravel, MySQL, HTML, CSS
- Features: Authentication, role-based access, student-facilitator mapping, auto-report generation

RillyAllure - E-commerce Website

<https://riyallure.com.ng> | 2024

- Developed a stylish and responsive e-commerce platform for beauty and fashion products using Laravel and JavaScript
